FIG Task Force on FIG and SDGs

## FIG Task Force on FIG and the Sustainable Development Goals

The Sustainable Development Goals (SDGs) and related land indicators will re-shape and influence our profession profoundly in the decade to come. It is of crucial importance that FIG member organisations and surveyors are aware and prepared on how their (daily) work contributes to the achievement of the SDGs and vice versa. What will be your role for the coming 10 years and how can you make the world a better place with your skills?

- General
- Africa Task Force
- Developing Global Land Tools for Pro Poor Land Management
- FIG and the Sustainable Development Goals
- Institutional and Organisational Development
- Mutual Recognitions of Qualifications
