

FIG WORKING WEEK 2017

Surveying the world of tomorrow -

Helsinki Finland 29 May - 2 June 2017

From digitalisation to augmented reality

*Presented at the FIG Working Week 2017,
May 29 - June 2, 2017 in Helsinki, Finland*

Comparative analysis of the legalization process in R. Macedonia and R. Serbia

What Is The Main Problem?

A miniature house with a red roof and blue walls sits on a desk with architectural blueprints, a ruler, and drafting tools. The background is a soft-focus view of a rolled-up blueprint.

- Origin
- Definition
- Influence

How Did We Get Here?

The background of the slide features a collection of architectural blueprints spread out on a surface. A small, white model of a house with a red roof is positioned in the center-right area. A wooden pencil lies horizontally across the bottom right of the blueprints. The overall scene is brightly lit, creating a professional and technical atmosphere.

- Original assumptions that are no longer valid
- Current methodology

Today's Situation

The background of the slide features a collection of architectural and engineering items. In the center, there is a small, detailed model of a two-story house with a red-tiled roof and light blue walls. This model sits on a set of architectural blueprints. To the left, a pair of drafting compasses is visible, and a ruler is positioned at the bottom of the frame. The overall scene is brightly lit, creating a professional and technical atmosphere.

- System of detection
- Treatment
- Advantages & disadvantages of each

Consequences

The background of the slide features a detailed architectural drawing of a house. A small, white house with a red roof and blue accents is positioned in the center-right. To the left, a pair of compasses and a pencil are visible, resting on the drawing. The drawing itself shows various rooms, walls, and structural elements, with a ruler placed horizontally across the lower portion of the image.

- Direct consequences

- Indirect consequences

Possible Improvements?

The background of the slide features a soft-focus architectural scene. In the center, a small, white and blue house with a red roof sits on a grey base. It is surrounded by various drafting tools: a pair of compasses, a pencil, and a ruler are visible. The entire scene is overlaid on a set of architectural blueprints, which are slightly blurred to create a sense of depth.

- Recommend one or more solutions
- What to do next
- Identify the actions

The image features a collection of architectural and engineering items. In the foreground, there are several sheets of blueprints with technical drawings, including floor plans and sections. A pair of drafting compasses is positioned on the left, and a wooden pencil lies on the right. A small, detailed model of a house with a red roof and blue walls sits on a grey base in the center. In the background, two large rolls of blueprints are partially unrolled, showing more technical drawings. The overall scene is brightly lit, creating a professional and technical atmosphere.
